September 23, 2010

Dear Ratepayer:

We would like you to be aware of the increase in King County's 2011 sewer Treatment charge and how it will affect the sewer bill you receive from Ronald Wastewater District. Residential customers receive a bill once every two months; commercial customers are billed monthly. On the other side of this letter is a 2011 sample bill that shows the impact of King County's Treatment charge increase. (Please do not use it to pay a bill.)

The Ronald Wastewater District Board of Commissioners, your elected sewer district commissioners, establishes the District charge. Although the Board has not made a final decision, it is expected that there will not be an increase next year to the current monthly District charge of \$11.15 each month. And you can still expect the same high level of service that we've always provided.

The King County Council establishes the Treatment charge and has decided to increase next year the monthly Treatment charge from the current \$31.90 each month to \$36.10 each month. This is approximately a 13% increase in the monthly sewage Treatment charge.

Please contact King County if you have concerns or questions about the 2011 increase in King County's Treatment charge.
