RONALD WASTEWATER

Dear George,

As you are aware, the City of Shoreline is in the process of designing the next mile of improvements to Aurora Avenue North, from approximately North 165th Street – North 185th Street. I appreciate that you have been working on this project with us. We anticipate beginning construction of this project in July 2009 and your efforts to date are helping ensure we meet this deadline.

The City's Aurora design team has been working hard to evaluate utility locations to minimize impacts. We respect and understand that all impacts to utilities are paid for by our community. Unfortunately, we are not able to avoid the need for your utility to be partially relocated within the project limits.

Pursuant to the terms established in your franchise agreement with the City of Shoreline, I want to be sure that you are aware of our schedule and our anticipated timelines to provide you with additional design drawings. Please consider this letter as official notice that we intend to begin construction of our project in July 2009. We completed and delivered 60% design drawings to you in October 2008. We expect to provide you with 90% design drawings in January 2009 and look forward to your comments at that time, including a schedule for when you anticipate relocating your infrastructure. Also, I would like be sure that it is understood that the franchise agreement requires you to complete relocation of the facilities at no charge to the City.

If you have any questions or need additional information, do not hesitate to contact me at 206.801.2482 or via email at koverleese@shorelinewa.gov.

Sincerely,

Kristen Overleese, P.E.
Capital Projects Manager
